Subject: Background on Helicopter Issue

Hi Sir,

Attached is quick write-up on BRANDT helicopter resupply question. There is no credible public information confirming the narrative, but appears plausible based on the aircraft itself. Can't confirm absolutely, but the aircraft appears consistent with one used by BRANDT. Based on the time stamps, this activity (assuming it actually occurred) looks like it would have been just prior to NOTAM around COUTTS going into effect.

Can share with RCMP to support any efforts to confirm compliance with NOTAMs, as they would be the POJ for any investigation. This may save them some time.

Regards,

Bill McAuley
